Placing equipment items into your custom quote

Enter an entire system template

Navigate to any system quote and select the "customize this quote" button. All items in the quote will be added to your custom quote. ****YOU MAY NEED TO WAIT SEVERAL SECONDS WHILE ITEMS ARE ADDED TO YOUR QUOTE!**

OR

Enter an individual component

Navigate to any component. Select the features desired and click the calculate unit price button. Once all options are as desired, click the add to custom quote button to move the equipment item to your quote.

inside the Custom Quote

Deleting Items

Simply click the delete button and the item will be removed from your quote. Click the "Clear Quote" button to remove all items.

Changing Conveyor Length

Delete the conveyor added to your quote. Navigate to the conveyor component section and select the desired conveyor length and type. Configure this component and add it to your custom quote.

Edit a Component

To edit a component select the edit button for any item in the quote. Options can be selected at the item detail view. Once changes are made, click the calculate unit price button to update the price. Once all options and price are as desired, click the add to custom quote button to update your quote.

Printing a quote

Click the print quote button and select the appropriate printer.

Email a quote

Enter an email address and click the email quote button to send the quote to any recipient.
